MEENAKSHI VIYYAPU

Anakapalli | +91-7671957601 | meenav1143@gmail.com |LinkedIn | GitHub | Codegnan

PROFESSIONAL SUMMARY

Recent B.Tech graduate in Computer Science & Systems Engineering from Andhra University, with hands-on experience in Python, web development, and AI concepts through internships and academic projects. Skilled in Python, MySQL, HTML, and CSS, with working knowledge of SDLC, debugging, testing, version control, and OOP. Strong problem-solver and communicator with a passion for software engineering and continuous learning.

EDUCATION

Andhra University College of Engineering, Visakhapatnam
Bachelor of Technology (B.Tech) – Computer Science & Systems Engineering| 2022 – 2026 | CGPA: 8.75/10

TECHNICAL SKILLS

Programming Languages: Python, SQL, Data Structures, Algorithms, Problem Solving
Database: MySQL, SQL Queries, Database Management, CRUD Operations, Joins
Web Technologies: HTML, CSS, Responsive Web Design, Flask, REST APIs
Libraries: NumPy, Pandas, Matplotlib, OpenCV, Scikit-learn
Tools: Git, GitHub, Visual Studio Code (VS Code), Jupyter Notebook
Concepts: OOP, SDLC, Data Structures, Debugging, Testing, Exception Handling, Version Control
Additional: Artificial Intelligence, Machine Learning, Data Preprocessing, Image Processing, Data Analysis

SOFT SKILLS

Problem Solving Skills, Analytical & Logical Thinking, Effective Communication & Collaboration

PROJECTS

WordWhiz – Python Word Guesser Game

- Developed a terminal-based word guessing game using Python with random word selection, input validation, and attempt tracking.
- Applied Python data structures, functions, and debugging techniques to deliver an interactive user experience.

Coin Detection System(Coin-Detection-Project-link)

- Developed a real-time coin detection system using **Python** and **OpenCV**.
- Implemented image processing techniques including circle detection, HSV color analysis, and object classification for accurate coin identification.
- Improved detection accuracy through testing, debugging, and algorithm optimization.

INTERNSHIP EXPERIENCE

Python Programming Intern | I&T Labs | April 2024

- Developed Python applications using loops, functions, file handling, and object-oriented programming concepts.
- Strengthened problem-solving and debugging skills by implementing programming solutions for real-world scenarios.

Full Stack Development Intern | I&T Labs | March 2024

- Developed responsive web pages using HTML and CSS following modern web development practices.
- Built user-friendly interfaces by applying responsive design principles and basic front-end development concepts.

CERTIFICATIONS

- **Python Programming – GeeksforGeeks:** Python fundamentals, Data Structures, Functions, OOP, Exception Handling, File Handling, Problem Solving.
- **Fundamentals of AI & Data Skills – YBI Foundation:** Artificial Intelligence, Data Preprocessing, Data Analysis, Machine Learning Fundamentals.
